

PATRIOTIC DONUTS

Mid-summer marketing is sure to include lots of patriotic decorations and products. With this being an election year patriotic items will sell well into late fall. Family gathering and parties often include red, white and blue decorations that make us all feel proud that we are Americans. Just imagine a platter of these colorful donuts on your party or breakfast table.

EXTRA SALES AND PROFITS FOR YOU!

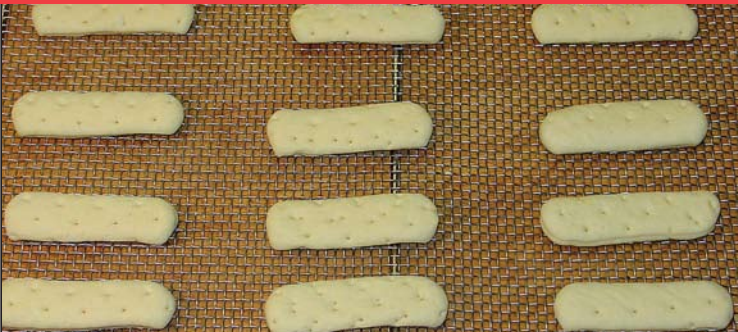

Decorate your store with Red, White and Blue decorations and display plenty of these patriotic donuts in your showcase. Sampling may not be that important however have you sales staff suggest them to every customer and give a weekly award to the sales person that sells the most donuts.
